

Our Classrooms

Our Pre-K classrooms are comprised of 9 centers, where children learn through purposeful play. Each center is designed to engage children to learn through the process of their efforts, by providing rich, age-appropriate opportunities. These opportunities develop relationships, self-awareness, self-confidence, problem-solving skills, language skills, and new vocabulary.

With school readiness in mind, the children spend a small portion of the morning in small group. Through these smaller, more structured social interactions, each child has the opportunity to further develop his/her language, writing and mathematical skills.

- Math/Manipulatives
- Writing Table
- Blocks & Building
- Dollhouse & Farm
- Snack Table
- Light Table
- Sensory Tub
- Puzzle Table
- Art Area
- Fine Motor Shelf
- Magnet Wall
